Lead developer

EquiScore Dressage Scoring, Woori Yallock (not officially employed)

2018 to 2019

Auto electrical assistant

Polktronics, Woori Yallock (not officially employed)

SELECTED WORK

2023 to now

Online tax return app

CTRL Accounting, lead web developer and director · Vue 3, Express 5, MongoDB, Keycloak, Stripe, AWS KMS

Clients answer plain-English questions and pay for their return. A registered tax agent then reviews it in a separate workspace and lodges it with the ATO. It is being prepared for launch.

- Return contents are encrypted in the browser, so only the assigned tax agent can open them.
- The Express 5 API runs on MongoDB, with Helmet headers and eight rate limiters covering auth, submissions, contact, support and both Stripe flows.

2026

Four Seasons Horse Rugs

Sole developer, Yarra Junction · Vue 3, Vite, Nuxt UI, PHP 8, MySQL, cPanel

A horse rug maker in Yarra Junction needed prices and repairs online, without a phone call for every quote. The site walks a customer through range, style, item type, size, lining and colour, then shows the price and the binding colours. The owner edits the catalogue, extras, sales, photos and announcement herself, with no developer involved.

- Prices live in MySQL in cents and are calculated on the server. A sale never rewrites the base price.
- Every write needs a signed-in session and a CSRF token. Sign in is throttled per address and per username.

2025 to 2026

SmartCity Dashboard

Swinburne capstone for an industry client, team of five, under NDA · Vue 3, Node.js, PostgreSQL, Python, Docker, Azure DevOps, AWS EC2

2025

GrowSpace, greenhouse and plant app

Swinburne coursework, COS30043 · Vue 3, Vite, Firebase Auth, Firestore, Firebase Storage, Bootstrap 5, PWA

Present

Makofire website

Built for a friend's wholesale business · WordPress, Kadence child theme, WooCommerce, Elementor

---

Also: Greenhouse monitoring system · Light sensor monitor · Android apps, COS30017 · Essentials Android app · WordPress sites and online store · Dressage scoring and results portal · Access database rebuild.
